Contents Volume 8, 1993

Ocean Carbon Cycle and Climate Change—An introduction to the Interdisciplinary Union Symposium
H.J.W. de Baar and E. Suess VII
Influence of changes in CO_2 concentration and temperature on marine phytoplankton $^{13}C/^{12}C$ ratios: an analysis of possible mechanisms
J.A. Raven, A.M. Johnston and D.H. Turpin 1
The biological pump in the greenhouse
E. Maier-Reimer 13
The abiotically driven biological pump in the ocean and short-term fluctuations in atmospheric CO_2 contents
V. Ittekkot 17
A model system approach to biological climate forcing. The example of *Emiliania huxleyi*
P. Westbroek, C.W. Brown, J. van Bleijswijk, C. Brownlee, G.J. Brummer, M. Conte, J. Egge, E. Fernández, R. Jordan, M. Knappertsbusch, J. Stefels, M. Veldhuis, P. van der Wal and J. Young 27
Organic matter mineralization in marine systems
J.J. Middelburg, T. Vlug and F.J.W.A. van der Nat 47
Are atmospheric CO_2 content and Pleistocene climate connected by wind speed over a polar Mediterranean Sea?
R.S. Keir 59
Limitations to the quantitative application of Cd as a paleoceanographic tracer, based on results of a multi-box model (menu) and statistical considerations
P.M. Saager and H.J.W. de Baar 69
Foreword
P.A. Pirazzoli, H.-P. Plag, R. Sabadini and S. Zerbini 93
The changing role of the lithosphere in models of glacial isostasy: a historical review
D. Wolf 95
Fennoscandian seismicity and its relation to the isostatic rebound
R. Wahlström 107
Rheological consequences of the lithospheric thermal structure in the Fennoscandian Shield
M. Dragoni, V. Pasquale, M. Verdoya and P. Chiozzi 113
Basal drag and laterally varying lithosphere: implications for sea-level fluctuations and intraplate deformation
C. Giunchi, R. Sabadini and S. Zerbini 127
Global sea-level changes and their measurement
P.A. Pirazzoli 135
Absolute sea level measurements, climate change and vertical crustal movements
T.F. Baker 149
Estimations of a global sea level trend: limitations from the structure of the PSMSL global sea level data set
M. Gröger and H.-P. Plag 161
Random walk expectancies for recent global climate, and in an enhanced Greenhouse warming
A.H. Gordon and J.A.T. Bye 181
A data-based re-appraisal of the terrestrial carbon budget at the last glacial maximum
E. Van Campo, J. Guiot and C. Peng 189
Three-dimensional modelling of Quaternary fluvial dynamics in a climo-tectonic dependent system. A case study of the Maas record (Maastricht, The Netherlands)
A. Veldkamp and M.W. van den Berg 203
Ecosystem structure and growth of the African savanna
J. Harris 213
Response of a global climate model to a thirty percent reduction of the solar constant
K.J. Walsh and W.D. Sellers 219

Climatic Change and the Mediterranean by L. Jeftic et al.—A. Guilcher 249
Climates of the World (Developments in Atmospheric Science, 18) by D. Martyn—O. Essenwanger 250
Greenhouse-gas-induced Climatic Change: A Critical Appraisal of Simulations and Observations by M.E. Schlesinger—G.R. North 251
